Experience

Black Hammer (Remote, US)

Software Engineer (Freelance contractor) — *Jul 2024 – Present*

- Developed a map-based custom product e-commerce platform using React, Next.js, Ruby on Rails, and Mapbox.
- Integrated Printify API and Stripe payments to support dynamic product rendering and checkout.

BigBinary (Kochi, India)

Software Engineer — *May 2021 – May 2024*

- Developed and maintained internal products using React and Tailwind, improving application responsiveness
- Collaborated across teams to deliver user-centric solutions
- Led the creation of NeetoUI, a component library that accelerated project development cycles
- Built an e-commerce platform using React, Ruby on Rails, Mapbox, and Printify, enhancing the shopping experience

Fingent Global Solutions (Infopark, Kochi, India)

Software Engineer — *Nov 2020 – Apr 2021*

- Developed educational platforms with a focus on accessibility, responsiveness, and component reuse.

Cubet Techno Labs (Infopark, Kochi, India)

Software Engineer — *Sep 2018 – Oct 2020*

- Built SPAs using Redux and Redux-Saga; implemented PWA features and persistent state management.
- Developed chat modules using socket.io and Quickblox for real-time communication.

Tranzmeo (Infopark, Kochi, India)

Software Engineer - March 2018 - August 2018

- Designed user interfaces for an online consultation web app using Ant Design React UI framework.
- Ensured cross-browser compatibility and smooth front-end integration with backend systems.

Projects

- Typed-React-Boilerplate: React + Redux + TypeScript boilerplate with Plop.js and Immer.
- Boundri: E-commerce app with SSR, Mapbox integration, and Printify sync.
- Total Parts Plus: Feature-rich tables with drag-and-drop and live cell editing.
- Biblingo: Learning platforms focused on performance and accessibility.

Education

B.Tech – Information Technology

Rajagiri School of Engineering and Technology, Kakkanad

2013 – 2017

Interests

Cycling, Traveling, Football, Snooker, Home Brewing
